

Take a ride with the **UCEMC**

# Safety Hounds

**K thru 3 KIDS**

Learn About  
**ELECTRICAL SAFETY**

with  
Abby, Buddy,  
Mac, Simon, and Stanley

## PARENTS AND ADULTS

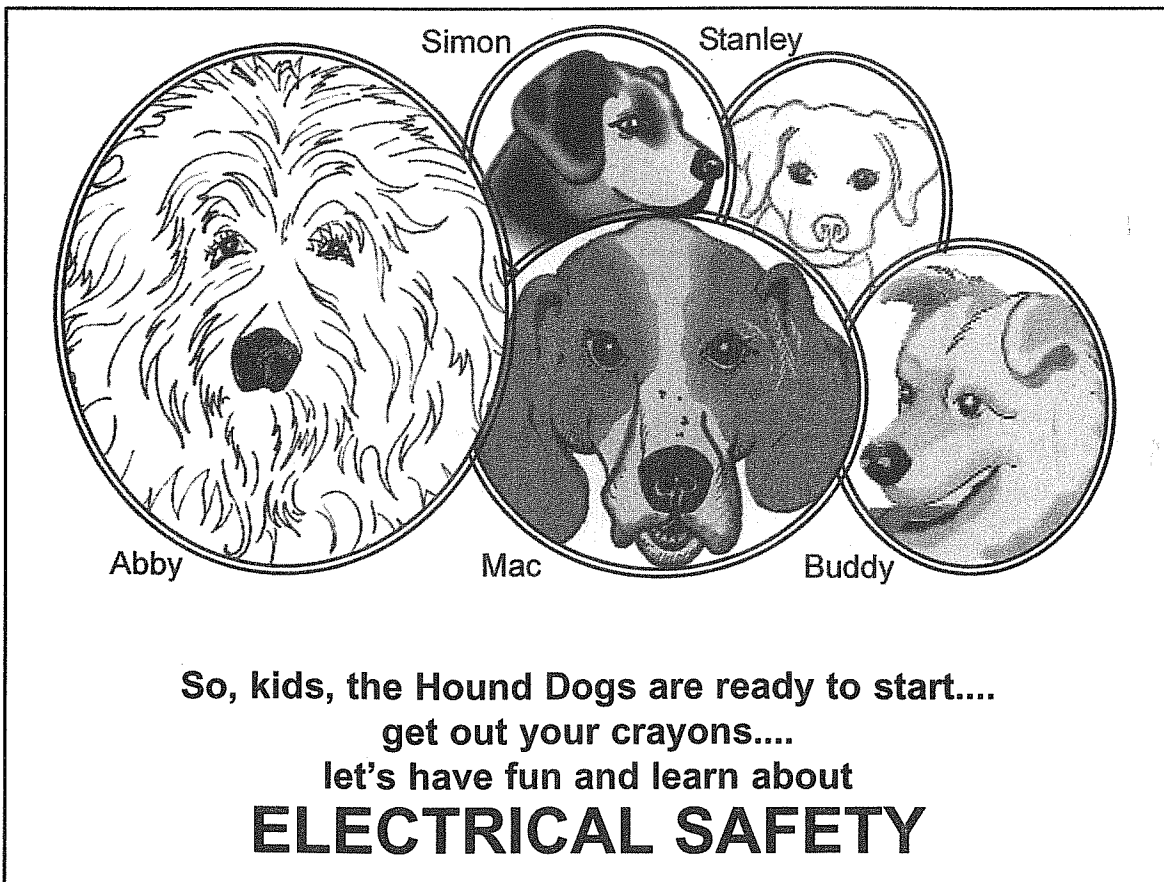

Everyone, young and old, should be aware of electrical safety. Even children, years before starting school, need to be made aware of electrical dangers.

This book was designed for children in the K thru 3 age group. UPPER CUMBERLAND MEMBERSHIP CORPORATION'S goal is for them to LEARN TO BE SAFE AROUND ELECTRICITY. But while they learn we want them to have fun with the pictures, color the pages, making a fun time out of learning.

For your child's benefit, we ask that you take a few minutes and explain the safety features covered on each page, making certain that the child understands electrical safety.

When the child has finished the book, cut off the Certificate on back page, enter the child's name and date. Congratulate them and tell them that they received it because they are learning to . . .

**BE SAFE AROUND ELECTRICITY!**

**So, kids, the Hound Dogs are ready to start....  
get out your crayons....**

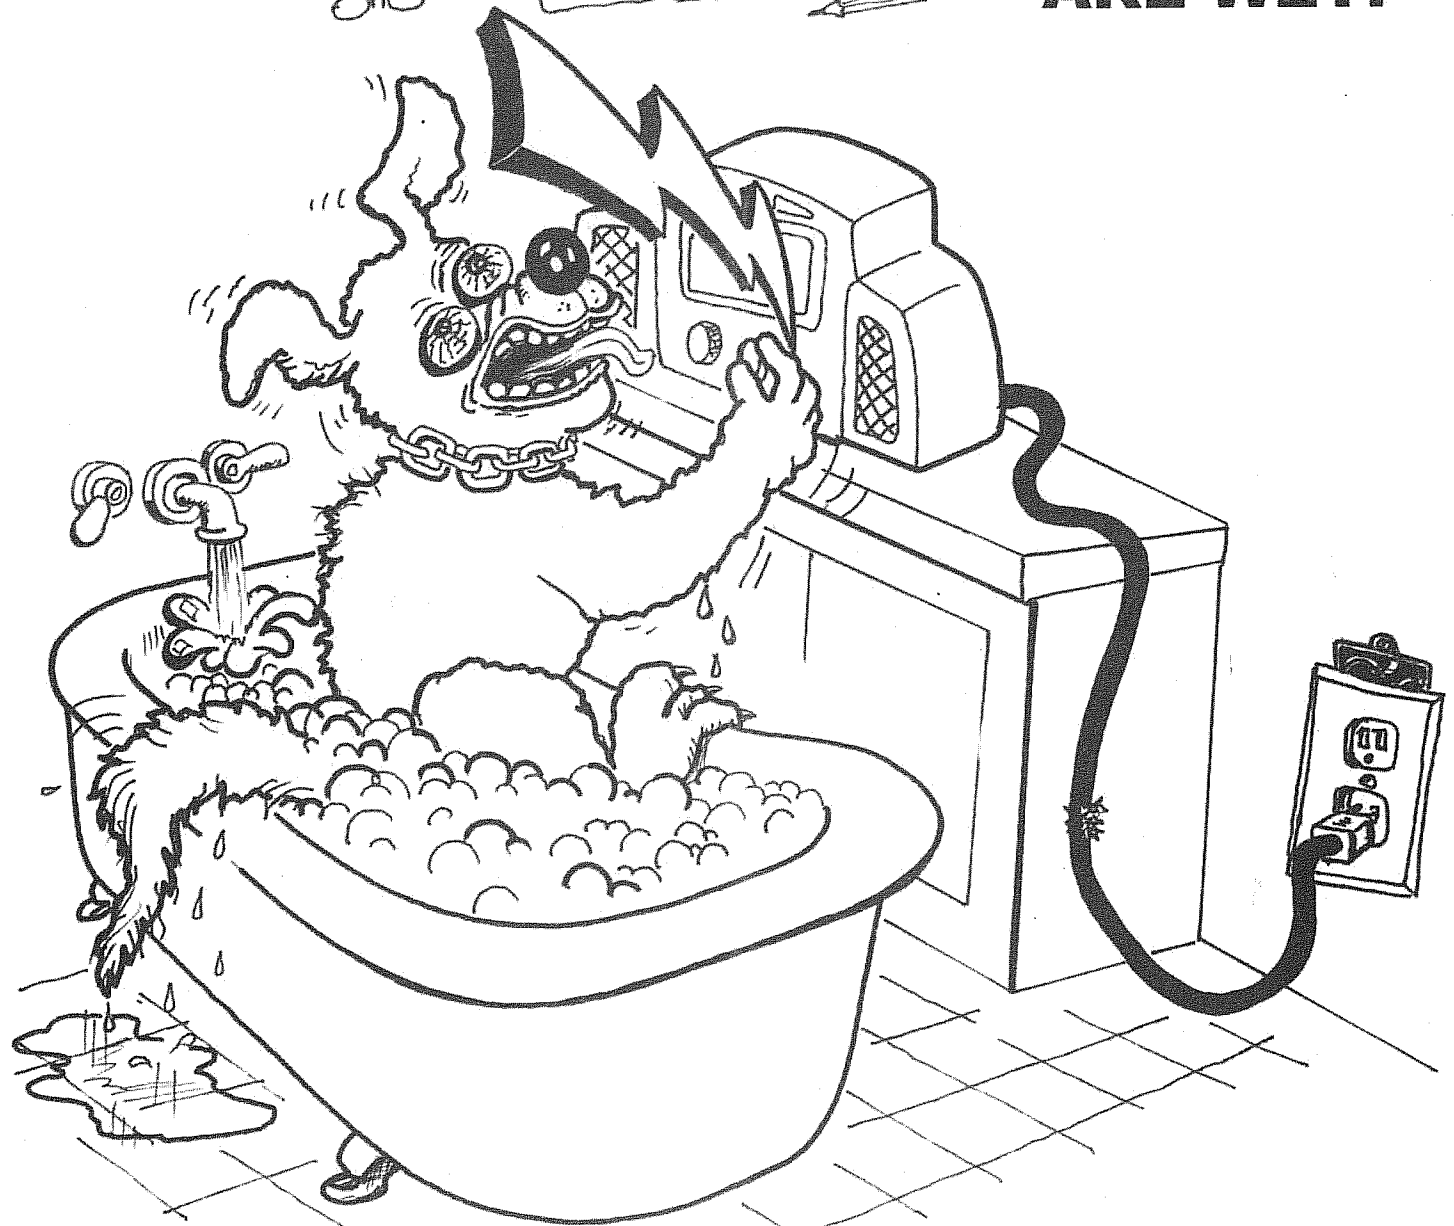

**let's have fun and learn about**

**ELECTRICAL SAFETY**

**NEVER  
NEVER  
NEVER**

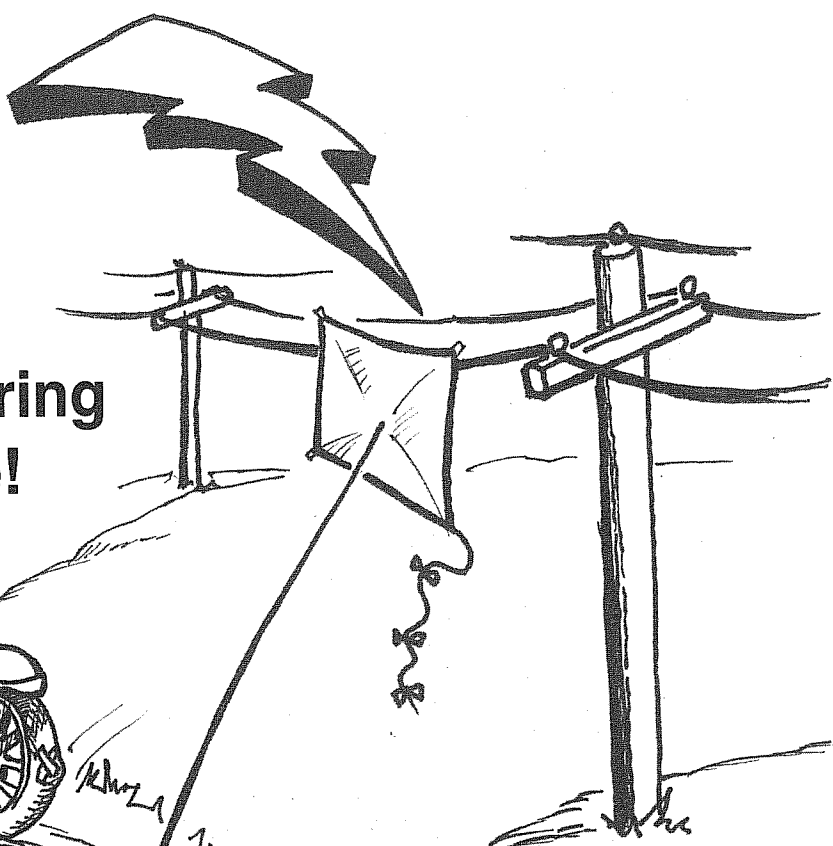

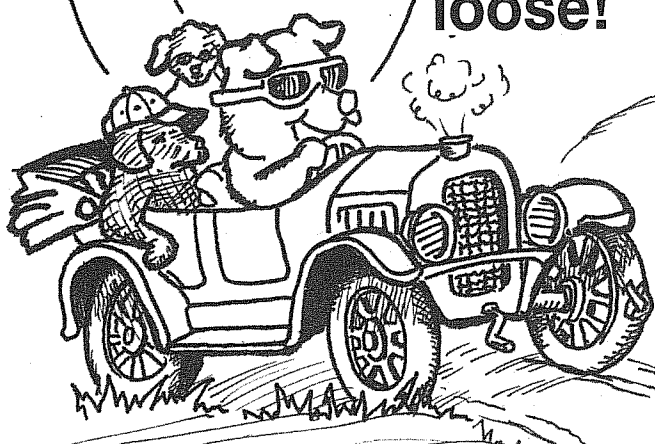

**NEVER  
TOUCH  
ANYTHING  
ELECTRICAL  
IF YOU  
ARE WET!**

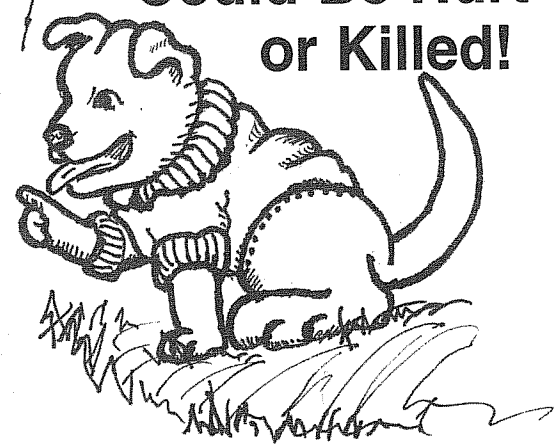

*CARL F. LEDBETTER*

**If a Kite...  
starts toward  
a power line...  
turn the string  
loose!**

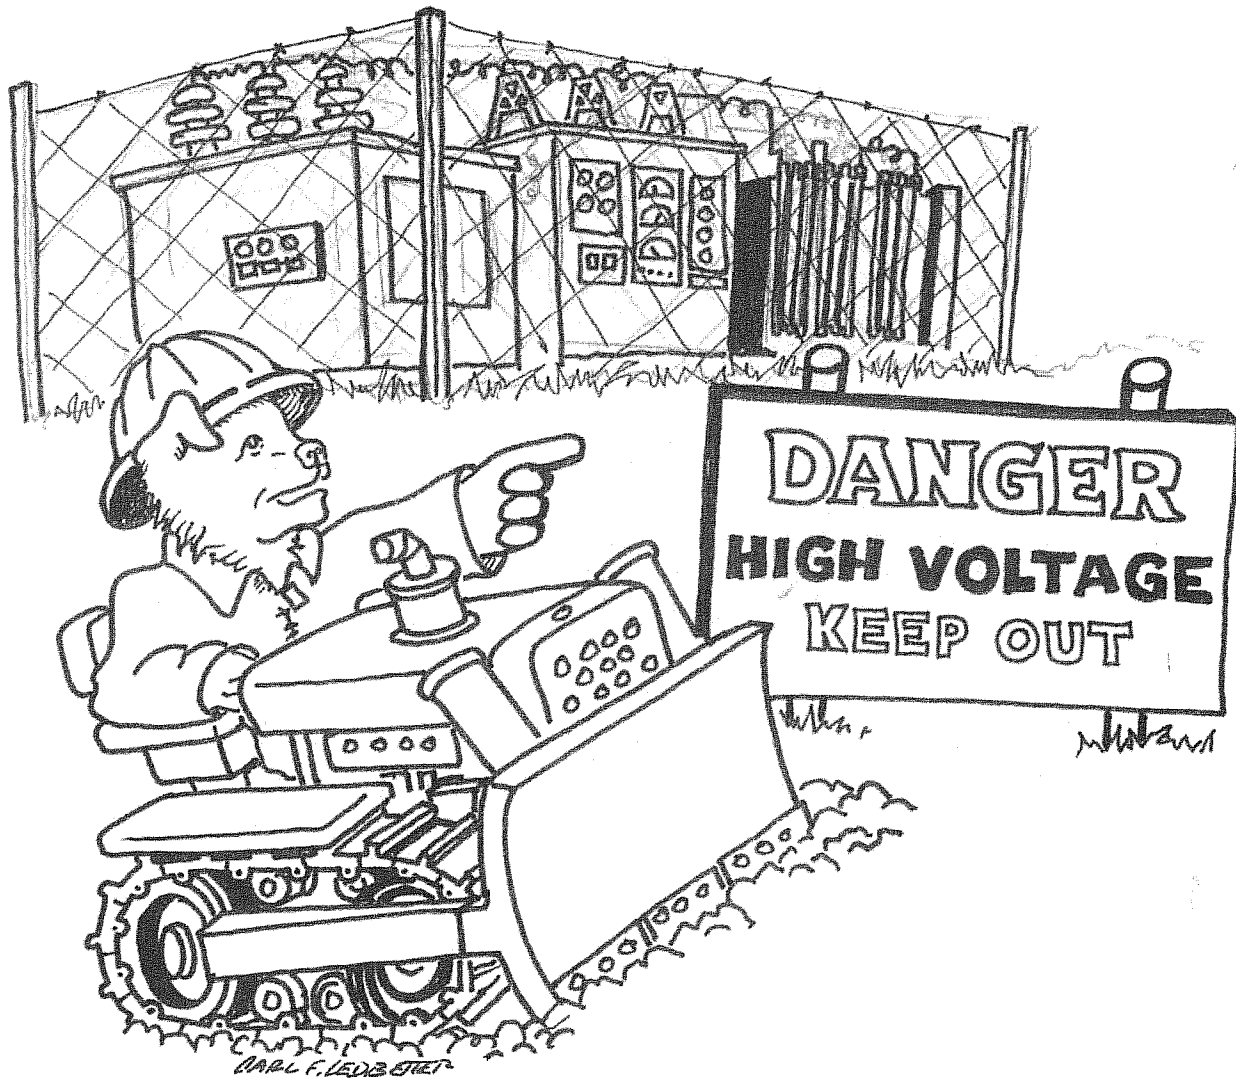

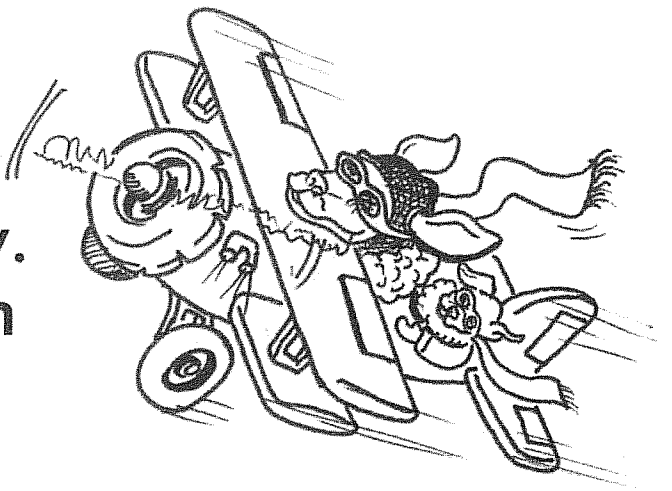

**The string could  
be wet... You  
Could Be Hurt  
or Killed!**

*Carl Schultz '09*

Look Mac! Buddy is  
telling everyone to  
**OBEY ALL SAFETY SIGNS**

He is right, Stanley.  
Now we can fly on  
to help others  
**STAY SAFE!**

**OBEY ALL SAFETY SIGNS**  
Don't play on guy wires, around transformers  
or near anything electrical!

# SAFETY RULES TO REMEMBER

Obey all safety signs.

Keep fingers away from electrical outlets.

Never climb trees near power lines.

Stay away from a power line that is down. Tell someone to call the electric company.

Never put a ladder near a power line or close enough to touch the power line should the ladder fall.

Never touch anything electrical if you are wet. Keep radios, hair dryers and appliances and anything electrical away from water.

Stay away from substations, transformers or any electrical equipment.

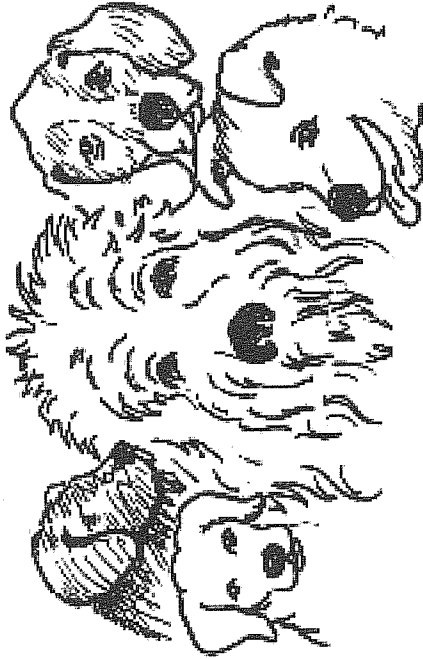

Never play or swing on a guy wire (that is the wire that goes from the pole to the ground).

Stay away from anyone who is being shocked or who is touching an electric line. If you touch them the electricity will shock or kill you. Call for help.

Stay away from where the electric company linemen are working. They work with big trucks and heavy equipment. They may not be able to see you. You could be hurt.

# THE SAFETY HOUNDS

Abby, Buddy, McGwire, Simon and Stanley, professors at the  
**UCEMC Hound Dog School of Electrical Safety**

presents this Electrical Safety Certificate to

\_\_\_\_\_ who is learning to be safe around electricity  
and has colored the pictures in this book.
