

UCEMC's Mission Statement

UCEMC is honored to be a member-owned electric service provider. Our mission is to deliver safe and reliable power at the best value to enhance life in our community.

New House Build

Key steps to getting electric service

1. Obtain or verify property 911 address
2. Reach out to UCEMC engineering and fill out the engineering load sheet.
3. Fill out a UCEMC Membership Application.
4. Bring proof of property ownership to UCEMC
5. If necessary obtain signed and notarized right of way easements, and deliver them to your local UCEMC district office.
6. Pay the Aid of Construction Charge.

Upper Cumberland Electric Membership Corporation (UCEMC)

UCEMC has proudly provided members in Clay, Dekalb, Jackson, Macon, Overton, Pickett, Putnam, Smith, Trousdale, White, and Wilson counties with electric service for over 85 years.

We're pleased that you will be joining our family of members who depend on us for their electric service.

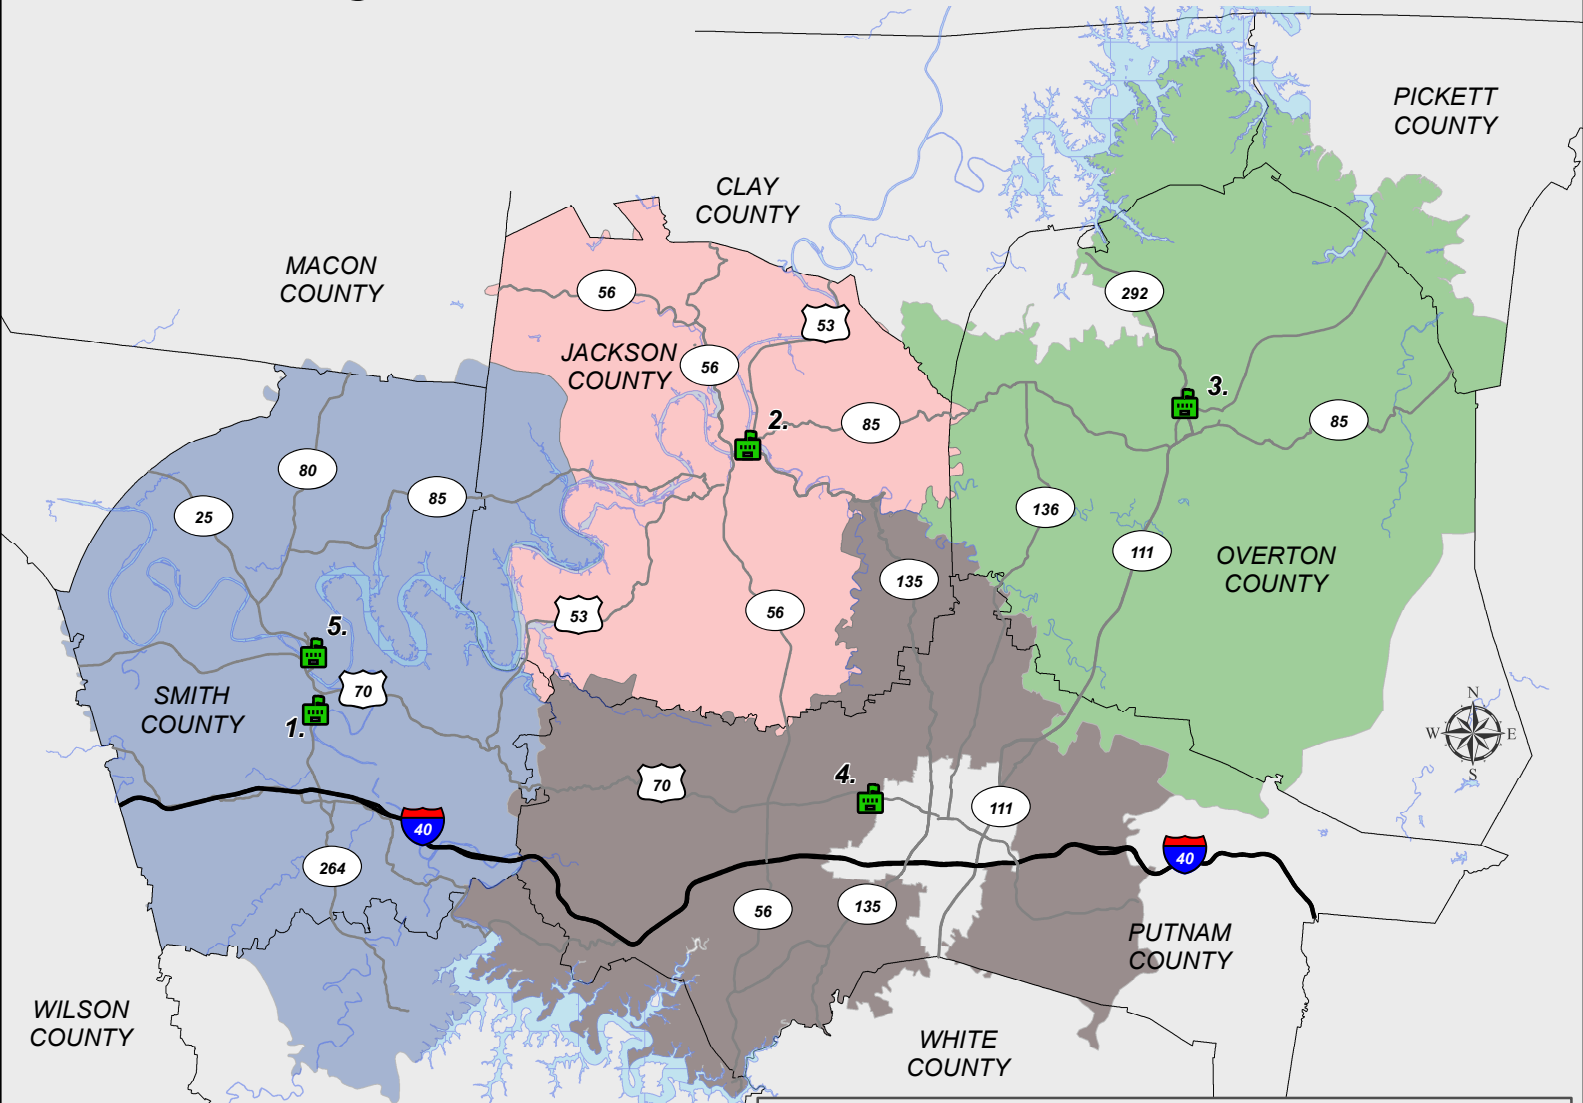

Being a cooperative member makes a difference.

UCEMC partners with TVA to make funding available for energy efficiency upgrades for homes through the TVA EnergyRight program. The rebates and incentives can help UCEMC members improve the efficiency of their new homes to better manage energy usage, energy bills and improve comfort, especially in the hot summer and cold winter months.

Partnering with TVA to bring incentives to our community makes a meaningful difference for families.

For more information on the TVA incentives, contact our UCEMC Member Service Advisor or www.energyright.com

UCEMC PROCESS FOR NEW ELECTRICAL SERVICES

For basic inquiry questions, call 1-800-261-2940 and choose the Engineering Department in your area.

- **911 ADDRESS IS REQUIRED**
 - Contact the county 911 office to obtain a new 911 address

- **VISIT YOUR LOCAL OFFICE OR SUBMIT ON-LINE (www.ucemc.com)**
 - Fill out the load sheet paperwork to get the engineering process started.
 - This load sheet might need to be completed by your electrician. Once completed you may turn it back in to your local office.
 - Engineering will then call to discuss. If needed, they will schedule a site visit.

- **SITE VISIT (only if required)**
 - Before an engineer can schedule site visit, some evidence of construction is required. This can include poured footers/slab, a staked-out floor plan, or driveway cut in.
 - This visit will be to conduct a plan for the new power lines. We will determine if any easements will be required, explain the requirements, and answer any questions you might have.
 - Note: You should not create NES (National Electric Safety) code violation by building under a UCEMC electric line.

- **THINGS THAT HAVE TO BE COMPLETED BEFORE JOB IS TO BE WORKED**
 - Clear ROW (Right of way) as instructed by UCEMC Engineer or ROW personnel.
 - Any vegetation that can grow into, or fall on, power lines must be cleared out. UCEMC requires 40 feet of right of way, 20 feet on each side of the line.
 - Please contact UCEMC Engineering after the ROW has been cleared.
 - Any Construction fees will need to be paid at a UCEMC office.
 - Any easements that are required will need to be signed/notarized and the original returned to UCEMC to be recorded. This can be done at UCEMC office.

Note: Easements give UCEMC legal right to be on the property in order to construct and to maintain out electrical distribution facilities.

It is the customers responsibility to get all required easements signed

- **BEFORE METER CAN BE SET FOR ELECTRIC SERVICE**
 - Fill out application for membership if not already a member
 - Bring in proof of ownership. Ex: Copy of deed, Bill of sale, sales contract, etc.
 - If a member you need to request a connection for new location

- Pay and sign necessary Aid of Construction costs
 - Pay and sign for any easements needed (Easements must be notarized)
 - Easements give UCEMC legal right to be on the property in order to construct and to maintain electrical distribution facilities.
 - It is the customer's responsibility to get all easements required signed*
 - Clear ROW (Right of way) as instructed by UCEMC Engineer or ROW personnel.
- **COORDINATE WITH LOCAL DM (DISTRICT MANAGER)**
 - District Managers are in charge of job scheduling.
 - You can email or call your district office and leave a voicemail on the District Managers phone if unavailable.
 - Leave Name, location of job, and phone number.
 - All underground services will be scheduled by the District Manager.
 - Customer is responsible for opening ditch for underground cable per UCEMC specifications. (see www.ucemc.com for drawing)
 - Customer is responsible for having meter base attached to the structure with a long sweep 90 degree radius using Schedule 80 3" conduit from bottom of meter base into ditch. (see www.ucemc.com for drawing)
- **ELECTRICAL INSPECTIONS**
 - You must pass state electrical inspection before a meter will be installed by UCEMC, this includes a temporary meter or permanent service. UCEMC does not inspect any meter bases, this is done only through the State of Tennessee.
 - A permit has to be purchased from State of TN to have an inspection.
 - To pull a permit go online on www.tn.gov.com.
 - Before getting started, if you have questions and would like to schedule a Consultation with a Deputy State Electrical Inspector, you can purchase a Consultation Permit for this.
- **PERMITS AND INSPECTIONS**
 - State Electrical Permits
 - Consultation (Optional)
 - Temporary Service Pole Inspection
 - Electrical Rough In Inspection
 - Service Release (Optional & Good for 45 days)
 - HVAC Inspection
 - Final Inspection
